PRAYAAN – PROMPT ENGINEERING

MCA TECH FEST

REGISTRATION FEE – ₹50 per participant

VENUE	REPORTING TIME	EVENT START
Lab 3	9:30 AM	10:00 AM

1. Event Description

Prompt Engineering is an individual AI challenge that tests participants' ability to communicate ideas clearly to AI tools and turn those ideas into creative digital outputs. Participants will complete two practical rounds: AI image generation and website creation. Creativity, prompt quality, output quality, and time management will help determine the winners.

2. Participation

- This is an individual event. Each participant competes independently.
- Registration fee: ₹50 per participant.
- Participants should report to Lab 3 by 9:30 AM. The event starts at 10:00 AM.

3. Rounds and Tasks

Round 1 – AI Image Generation (10 minutes)

Participants will generate an image using Gemini Nano Banana, following the task brief provided by the organisers. The image should closely match the brief and demonstrate creativity and quality.

Round 2 – Website Creation (15 minutes)

Participants will create a college or university homepage using 8B.com, as specified by the organisers. The website should have an attractive layout, relevant content, and a clear structure.

4. Rules of the Competition

- All participants must register before the event begins.
- Participants must work individually and create their own outputs.
- Use the tools and features permitted by the organisers. Paid/Pro features are not allowed if the event is restricted to free access.
- Each round must be completed within the allotted time.
- For image generation, the output should closely follow the given brief.
- For website creation, the task is to create a college or university homepage.
- Participants must be ready to present or submit their work when time is called.
- Copying another participant's work or using prohibited external assistance may lead to disqualification.
- The decision of the judges and event coordinators will be final.

5. Judging Criteria

Criterion	What the judges will assess
Creativity	Originality and how engaging the idea is.
Prompt effectiveness	How clearly the prompt communicates the task to the AI.
Quality	The finish, clarity, and overall presentation of the output.
Relevance	How closely the result follows the task brief.
Time management	Completion within the time limit.

7. Prizes

FIRST PRIZE	SECOND PRIZE
Awarded to the participant with the strongest overall performance.	Awarded to the participant with the next-highest overall performance.

8. General Guidelines

- Participants must follow the instructions of the event coordinators.
- Maintain discipline and fair play throughout the event.
- Organisers may communicate any necessary rule clarifications before the event starts.
